

## The Smart Shipping Solution

### **Go Beyond Standard U-channel Solutions**

Save up to 75% on shipping costs compared to pre-formed or pre-assembled U-shaped products! New ChannelLock features two separate pieces that join together to create one solid, reliable form of edge protection. It ships nested, saving much-needed shipping space. Ideal for protecting products that require optimal abrasion resistance.

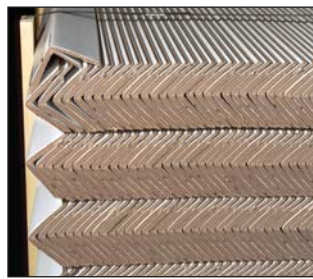

Simply place two of the pieces together at one end and push the full lengths together to form the ChannelLock.

- Ships in two pieces that nest together, dramatically reducing shipping costs
- Easy to affix to product and adjust to fit—no gluing or riveting necessary
- Outer leg can be printed with your company's logo or message
- Locking feature expands and contracts to custom fit your product
- Available in a variety of paper widths in three calipers with 18" to 96" lengths
- Environmentally friendly and easily disposed of

*U-channel does not nest; requires four times more shipping space than ChannelLock.*

*ChannelLock conveniently nests to only take up one quarter of the space!*
