

## Ordering is as easy as 1-2-3!

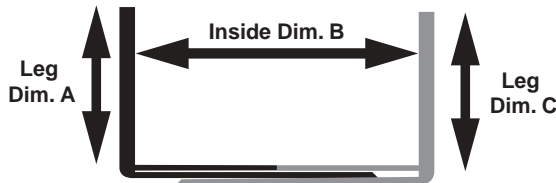

### 1. Understanding ChannelLock

Each ChannelLock is two separate pieces that join together to give you reliable, custom-fitting U-shaped edge protection.

### 2. Measuring and Ordering

Although ChannelLock is made up of two pieces, it is ordered the same as standard U-shaped products. Use leg height measurements (A and C) and inside dimension of the "U" base (B) to specify your required size. ChannelLock is unique because as the two pieces slide together, there is a 1/2" range of expansion and contraction in the base to fit your product more precisely. For example, if the leg lengths are 2" and the inside dimension is 4", then the product would be specified as 2" x 4" x 2" with the capability of expanding to 2" x 4½" x 2".

Note: Illustrations not to scale

#### Caliper Widths

ChannelLock is available in calipers of .160, .250, and .320.

#### Leg Lengths

Available in short lengths (18"-30") and long lengths (31"-96"). Print the outer leg with your company's logo or message for maximum impact!
