

Pre-Formed Rectangular Edge Protection

PF PalletTops are a smart alternative to expensive, hard-to-dispose-of wood pallet tops. Made by riveting two pieces of notched VBoard® together, PF PalletTop unfolds easily to form a sturdy square or rectangular shape to fit the tops, sides or bottoms of palletized loads.

Use in place of traditional wooden pallet tops to protect loads from shipping and strapping damage.

▲ PF PalletTops are a cost-effective method of product packaging.

◀ Also use PF PalletTop as a simple, effective method of additional reinforcement for interior packaging.
